Science – Build a Bridge!

By Jerusalem B15

First I watched a video on Youtube. Next I picked a friend to help me, this was Andrick. We needed popsicle sticks and a glue gun. To make the bridge strong we used triangle shapes and held it really carefully whilst it dried. I think we used about 100 sticks and 2 glue sticks for the gun.

Sore Throats!

Rhyming Writing

By Tinatasha B11

Having a sore throat is really bad but if you don't have a sore throat you should be glad, having a sore throat will hurt your lungs but when your coughing you wont have any fun.

When your coughing it will be really sore something that nobody can ignore, you will be passing a lot of germs if you don't take your medicine you will never learn.

If you don't call anyone soon you might end up inside a surgery room, you might be in trouble so call the doctor on the double.

If you have a saw throat your probably in danger if you don't call the doctor soon it will be major. If you already went to the doctor you should listen and take your lovely medicine.

If you have a sore throat it will be bad for your lungs and if it gets worse call 111.

Welcome to Issue 3 of Team 2 Nga Hau E Wha Newsletter!

Students have been very busy preparing for the Art Exhibition on Tuesday and Wednesday next week. It will be amazing to see you. In the meantime enjoy some work from some of our fabulous learners.

A Funny Limerick

By AJ Timu B4

There was an old woman named lee
Her favourite insect was a bee
She went to her room
To clean up with a broom
And she met Bruce Lee
