Write a Personal Biography

Get to know someone in your house

Biographies are about real people that are written about someone else.

Biographies include facts about a person like...

- Name and date of birth
- Where they were born
- Family, siblings
- What they're famous for
- Achievements
- Interesting facts, hobbies, favourite food, hidden talents etc

Step 1: Choose someone in your house

Step 2: Conduct an interview on them and gather information

Step 3: Write a short introduction about the person

Step 4: Share facts about them in the personal bio with a profile picture

IMPORTANT!!

Make sure that when you're writing about someone, that your information is based on facts. So you need to do some really good research before you start. If your bio is about a friend, it would be best to ask them first.
