KIWIKIDS NEWS

NEW ZEALAND DINOSAURS

— by Hamish Campbell —

Dinosaurs – these huge animals ruled the world for more than 150 million years. But for a long time, scientists thought that no dinosaurs had ever lived in New Zealand. Then, in 1975, something happened to change their minds.

Dinosaurs

THE MOA

BY LUCY BUCHANAN
Motomoto Intermediate,
Winner of the
Elsie Locke Writing Prize 2017

Abramzy's family had been arguing again. She had heard shouting on the way to the lake but had chosen to ignore it. Instead, she quickened her pace towards the safe, sandy shore and sat there now, thinking. Dipping her hands into the cool waves, Abramzy picked out the prettiest stones she could find, smoothing the feel of the smooth ones before dropping

AFTER THE FIRE

BY ADRIENNE FRATER

Joe was first off the bus. He was meeting Mum at the rescue centre, and she'd worry if he was late. He began to run, though not fast because of his asthma. The air wasn't as smoky today, but the helicopters were still there, carting their big red buckets. Joe could see one in the distance, heading to the valleys. It was only two weeks since the fire, but it felt like the helicopters had been there forever.

Spirit of the Bird

by Ben Brown

It is the hunting season in the new land. For Pai and her people, the long days of summer mean work. It is time to find moa. But Pai would rather not hunt. She has other things on her mind, things like painting.

"She's our dreamer, that one," her father often says. "This place needs its dreamers," is her grandmother's answer. Pai has dreamt all her ten years in the new land. She is always gazing up at the night sky. Grandmother has taught Pai the names of the heavens. Pai can't believe there are only twelve of them. She is sure there must be more. But her grandmother knows these

THE SHOW WENT ON

by Bernard Beckett

The children of Room 7 stood in line and tried to stay quiet. Their teacher, Mr Appleton, waited at the front with his finger to his lips. Next door, in the school hall, they could hear the audience laughing. Seth knew why. They were laughing because Rex and Anthea, dressed as a taniwha, were rolling on their backs with their legs in the air while Chen tickled their taniwha tummy with a broom. During dress rehearsal, the taniwha had accidentally rolled back into the lake. (The lake was actually a paddling pool filled with water.)

Effect of climate change on animals

CREATE-Choose any 6 and create them.

1.Purpose: to inform
Information report on a animal/living creature.

- What does the animal /living creature look like?
- Where did it live?
- What did it eat?

2.Play this game to find plants and animals differences.

3.Find the food chains of some living creatures.

4.Write about your Favourite Animal/Pet -Show and Tell

- Do you have beloved pets at home?
- Add pictures of your animal companions,along with stories about their furry (or feathery or scaly)
- If you do not have pets, write about your favorite stuffed animal or find pictures of your favorite animals and explain what you love about that animal.

CREATE

5. Using [Comics](#), to create a comic strip about your daily conversation with your pet.
Or
Use any other ideas and create your own comic strip

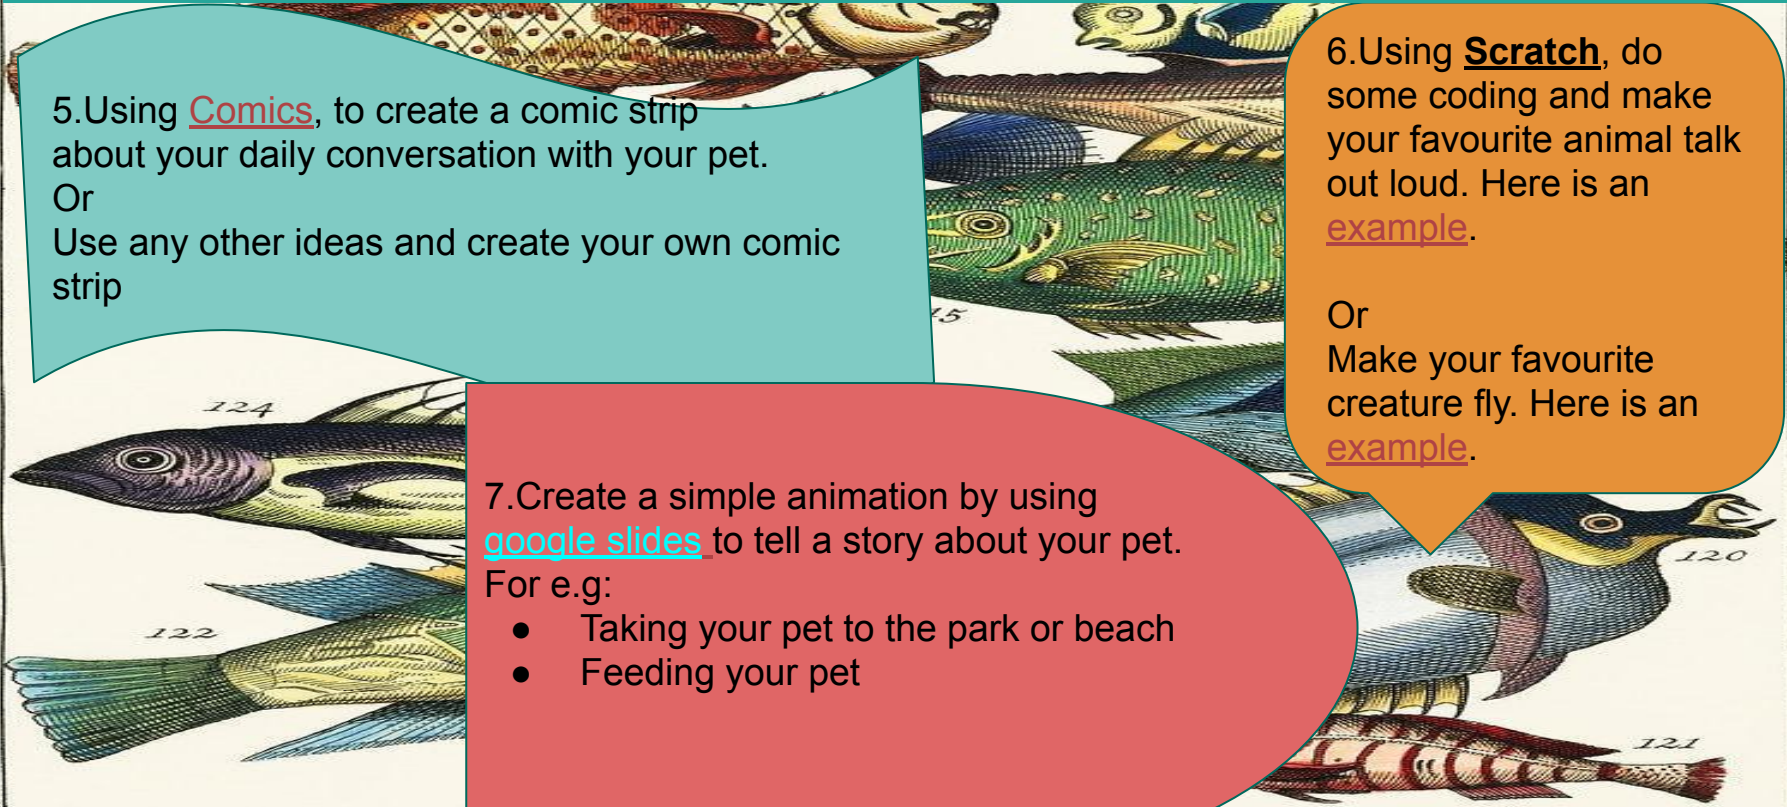

6. Using [Scratch](#), do some coding and make your favourite animal talk out loud. Here is an [example](#).

Or
Make your favourite creature fly. Here is an [example](#).

7. Create a simple animation by using [google slides](#) to tell a story about your pet.

For e.g:

- Taking your pet to the park or beach
- Feeding your pet

CREATE

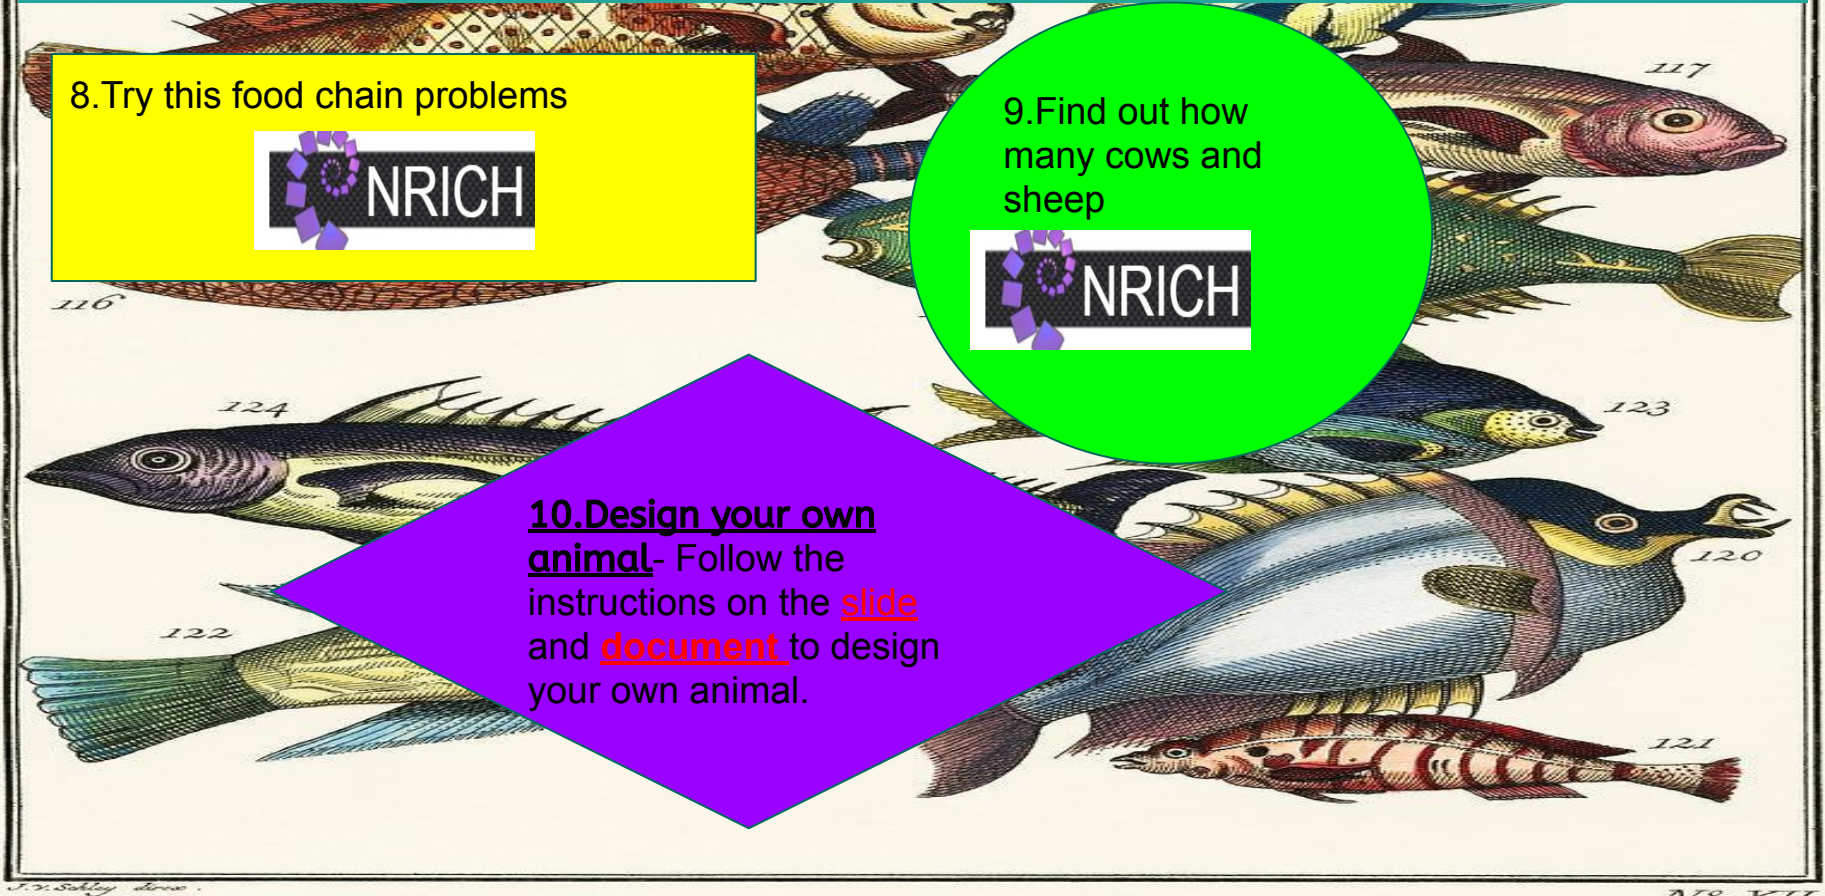

8. Try this food chain problems

9. Find out how many cows and sheep

10. Design your own animal- Follow the instructions on the [slide](#) and [document](#) to design your own animal.
