

HEALTH EDUCATION STATEMENT

- **Community Consultation:** Survey of Parents and Parent meetings

OUTCOMES – 2017-2019

1. Our community of parents is confident in our teachers being able to provide quality programmes, annually, on Sexuality Education (Puberty).
2. These lessons will be taught to some mature Year 5 students and all Year 6 to 8 students.
3. Parents are aware of their right to withdraw their child from these puberty lessons.
4. Before lessons begin, parents will be informed by the school or team newsletters when puberty talks will be taking place.
